

DEPARTMENT OF COMPUTER ENGINEERING

CO-CURRICULAR CLUB
TECHFORGE CLUB

Organized

"HELPING HANDS!"

The Department of Computer Engineering had organized an event "Helping Hands" on 6th May 2024. Target Audience were Students from EEE, CSE, ISE, CE, AIML, CIVIL, M.Tech students and Faculty members.

Techforge club organized a Helping Hand program at Samarthanam Trust where we distributed essential supplies to children physically and visually impaired individuals. We have handed out 50 bottles, 25 books, 5 packs of pencils, and 5 packs of sketch pens. The event was not just about distributing items but also about engaging with the community and volunteers interacted with the children and individuals with disabilities, fostering a sense of connection and support. The initiative sought to both show how important it is for society to be inclusive and empathetic while simultaneously offering practical assistance. Established in 1997, Samantha Trust Foundation, guided by the visionary leadership of Dr. Mahantesh GK, continues to be a steadfast advocate for the rights and well-being of the specially-abled community across 13 cities. Its commitment to innovation in education, exemplified by the implementation of smart classes, MAD, robotics, and AI, has not only enhanced learning outcomes but also fostered a sense of empowerment and dignity among its beneficiaries. Through strategic partnerships with government schools, the foundation has extended its reach and impact, ensuring that no one is left behind in the pursuit of education and employment opportunities. Moreover, its diverse array of sporting and cultural initiatives, such as the Cricket Association for the Blind and the Sunadha festival, serves as platforms for self-expression, camaraderie, and social integration. Samantha Trust Foundation stands as a beacon of compassion, resilience, and hope, dedicated to building a more inclusive and equitable society for all.

Outcome: The students were able to understand the effectiveness of community engagement in social wellbeing which increased Awareness among the students to understand of the rights and services available to them.

Ms. Pramila S, Assistant Professor Faculty Co-ordinator
